

May 6, 1992

Mr. Bruce Peterman
Operable Unit Project Manager
EG&G Rocky Flats, Inc.
P.O. Box 464
Golden, Colorado 80402-0464

Subject: Transmittal of Outstanding Copies -Draft Phase I RFI/RI Work Plan, Operable Unit 8 - 700 Area, DOE Rocky Flats Plant Site.
ASI Project No. 208.14

Dear Mr. Peterman;

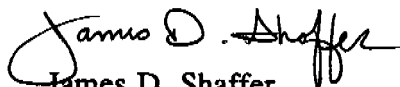

Pursuant to my letter of May 1, 1992, Advanced Sciences, Inc. (ASI) is pleased to submit twenty (20) copies of Volumes I and II of the subject completed Work Plan for your review and distribution. This Plan has been prepared in accordance with the scope of work and terms of Basic Order Agreement (BOA) 215362SH.

This iteration of the Work Plan incorporates ASI's responses to the DOE Project Manager's verbal comments regarding the Draft-Draft version of the Plan which was submitted on April 20, 1992. Also, included are ASI's responses to EG&G comments on the Draft-Draft that were received as of April 27, 1992.

These twenty copies include color copies of all fold-out maps depicting the current physical setting and the location of IHSSs within OU8. As was provided by EG&G, the Quality Assurance Addendum and Chemical-Specific Benchmarks, and References (Section 11.0); which were not available for the May 1, deliverable are also included. Inserts to replace figures included with the five copies provided last week will be delivered to you on tomorrow, May 7.

Should you have any questions, please do not hesitate to contact me for discussion at ASI's offices in Lakewood, Colorado at telephone (303) 980-0036.

Sincerely,

James D. Shaffer
Project Task Manager
